HARTFORD, Conn., Jan. 3, 2017 /PRNewswire/ -- [Virtus Global Dividend & Income Fund Inc.](#) (NYSE: ZTR) today announced that it has declared a supplemental distribution of \$0.50 per share of long term capital gains to meet requirements under the Internal Revenue Code of 1986, as amended.

Type	Amount of Distribution	Declaration Date	Record Date	Payable Date
Long Term Gain	\$0.500	January 3, 2017	December 29, 2016	January 10, 2017

In addition, the fund previously announced the following monthly income distribution:

Type	Amount of Distribution	Declaration Date	Record Date	Payable Date

The ex-dividend date for both distributions will be January 5, 2017. The fund also announced today the final results of its tender offer; tendered shares will be entitled to these distributions. Thus, shareholders as of the record date will receive an aggregate distribution of \$0.613 per share on January 10, 2017.

The fund's total distributions for the 2016 calendar year were \$1.774 per share, including this special distribution as well as the fund's monthly distributions. That is an annualized distribution rate of 13.9 percent, based on the fund's closing share price of \$12.77 on December 30, 2016.

Under the terms of its managed distribution plan, the fund will seek to maintain a consistent distribution level that may be paid in part or in full from net investment income and realized capital gains, or a combination thereof. Shareholders should note, however, that if the fund's aggregate net investment income and net realized capital gains are less than the amount of the distribution level, the difference will be distributed from the fund's assets and will constitute a return of the shareholder's capital. You should not draw any conclusions about the fund's investment performance from the amount of this distribution or from the terms of the fund's managed distribution plan.
